

Submitter: Leta Muncie

On Behalf Of:

Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

To: Governor Kotek and Law Makers:

I am a native Oregonian. I have BEEN proud to be a native; however, not so much any more. The rise in the cost of living here is beginning to make me think differently. The proposed taxation for the transportation bill is and will cause more people to move out of Oregon.

I cannot afford the taxes that you have already put in place; let alone these new proposed taxes. It seems like your only solution is TAXES.....and more TAXES! Oregon needs to have a DOGE department and do a complete evaluation of every department but in particular ODOT.

May I suggest eliminating some of the wasteful spending and hiring ODOT is currently doing. A COMPLETE OVERHAUL OF THE BUDGET needs to be done; FIRST!! Then start with a zero base budget and decide what is needed.

You might be wondering why people are leaving Oregon; look in the mirror and you will have your answer. Please reconsider and please work across the aisles and listen to what our representatives, especially our Republican representatives are telling you. They are listening to their constituents. NO MORE TAXES!!!!

Respectfully Submitted,

Leta Muncie
