NO MORE TAXES!

On behalf of Oregon's Overtaxed Citizens we ask for tax relief NOT MORE TAXES. Democrat governors have destroyed this state and it has become almost unlivable. It's already looking like a third world county in the larger cities like Portland. And now you want to administer the coup de grâce and finish us off one and for all. This state is becoming uninhabitable and unaffordable. You and any legislators that vote for increased taxes are the problem, not the solution. Your citizens are being forced to tighten their belts and live more frugally, while you allow government spending without accountability. Do you care? I don't think so.
