Funding

Measure, Appointment or
Topic: LC 2

I formally oppose this spending plan. As an Oregon resident, who's name is not Rockefeller, I do not have inexhaustible income. Budgeting and proper operations need to be managed by those in office without moving towards bankrupting those who they are charged with serving.

Additionally, attempts at passing this plan while trying to bypass any voting is about as unethical as it gets.

We already have unreasonably high taxes, and most of us are struggling every month just to pay rent and other bills.

You, who are in office, are there to serve the people who voted you in. Do not betray their trust further.
