To: governor Kotek ,

and all constituents in regards to raising the price of Gas tax and employee taxes. Many business have already closed down due to higher prices, and gas prices are also at a all time high , rent has gone up to the point where there's even more homelessness and groceries have sky rocketed. Your government was hired by the people of Oregon, you are the example and this is not a good example. I have lived in Oregon all my life. I'm so disappointed in our government in Oregon right now. Please think before you act, not all Oregonians can actually understand what's going on with our government but I do. I oppose your not going before the people to ask for these changes. Please stop.
