No new taxes, PLEASE! We have lived in this beautiful state for over 40 years and have witnessed its sad decline especially over the past 25 years. Many residents have fled to family friendly states with a lower cost of living. Revenue is being lost for our state, but it is not fair or right to penalize those who remain by raising taxes. Our state income tax and property tax is already among the highest in the nation. NO MORE TAX INCREASES OF ANY KIND; roads, tires, gas, etc.

Respectfully,

Judith
