I live in Sublimity, Oregon. My wife and I retired 3 years ago thinking we could afford to do so! The last 4 years has seen cost of living go up and passing any cost of living increase we have gotten!

If these taxes go up in the state of Oregon this will further put the burden on us we cannot afford!!! I was born and raised in this state and do not wish to leave, it now has become an option, and if your gas taxes and fees go up it could become the solution for us. We have had friends move to other states so they did not have to pay Oregon taxes and enjoy their retirement earnings!

Please, NO MORE TAXES!!!!
