Funding

Measure, Appointment or  
Topic: LC 2

I am writing to express my no vote on HB2025. There needs to be more accountability at ODOT, the answer is not to raise taxes. We are already be choked to death in this state and taking more money out of paychecks will only make it worse. The transit system is not heavily used in this state and making rural communities pay for it is ridiculous. Let the hard-working Oregonians in the logging and trucking industry do what they know best. We are so much more than Portland, we are so much more than the little community that you tend to cater to. Listen to the people.
