Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

Please reject the proposed transportation tax bill and find alternative sources of funding. I am retired and living on a fixed budget. My wife still works, but is preparing to retire. The proposed 50+% increase in registration fees increased gas tax will only contribute to the inflationary destruction of my income. Doubling the payroll tax for a transportation system that we do not use is bad enough. Increasing it by 100% is outrageous. Please find ways to increase efficiency using the revenues currently available.
