To Whom it May Concern,

Once again I am urging you to vote NO on the transportation bill being proposed by the governor. Ordinary Oregonians CANNOT afford any more taxes! This seems to be the only solution that the Super Majority Democrats can come up with whenever there is a budget deficit. There has to be a better solution.

How about taking a look at fraud and waste at ODOT and come up with solutions there instead of putting it on the shoulders of the tax payers?

Oregon is ranked 4th from the bottom among the states in terms of affordability, health care, education, and housing, to name a few. Our gasoline is already one of the highest in the nation. We are losing viable companies to other states with friendlier tax incentives. You would think our Legislators would get it! NO MORE TAXES!

I was born and raised in Oregon, but, I am beginning to think that moving to a different state would be more affordable for my wallet than remaining here in this TAX EVERYTHING state.
