Ref. Governor Kotek's Transportation Package

We are totally opposed to the massive increase in taxes and spending being authorized in this package. The increases are constant with little to show for them on the roads. We are retired and this will have more direct impact on our household budget than anything else in the near future. It is also not consistent with Oregon's Constitution by sidestepping the required 3/5ths vote to raise future taxes. This is not good policy to eliminate response and participation from your electorate. We will not support anyone in elected government positions in the future that support this proposal.
