

Submitter:	David Reid
On Behalf Of:	People who unfortunately pay Kotek salary
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

I consider myself an average middle class hard-working blue-collar American, who is literally tired of Tina Kotek taxiing us for every little thing that they should've had plans to cover with basic planning it seems like every time she needs money to cover one of her projects. It's like let's raise taxes. Let's add money to the gas tax. Let's hike the payroll tax. Let's steal money out of the kicker tax oh just this one time even though you have no right to touch the money. The taxpayers have paid in and are due back rightfully as a return I drive round-trip almost 100 miles a day to get to and from work. The last thing I need is more money taken out of my payroll so I have less money to spend for the higher fuel prices at the pump and by the way doesn't Oregon, already have one of the highest fuel cost in the Nation as well as the highest gas tax in the nation please do not vote for this absurd sneak this bill in at the last second under the guys of we really need it on a holiday weekend when nobody is watching vote no vote it down. Listen to the people who elected you thank you very much.
