Funding

Measure, Appointment or  
Topic: LC 2

Well, here we go again. The liberals, including the governor, want to increase taxes on gasoline, license renewals of all types, and Lord knows what else. I sincerely hope ALL Oregonians are tired of being taxed to death, because most of our legislators don't know how to manage money. ODOT is the most mismanaged agency in this state, in my opinion, and you liberals just want to keep throwing money at them. ODOT and the governor must learn to use the funds available in the most efficient manner. PLEASE stop taxing Oregonians for almost everything. I live in Klamath Falls, which is far away from Salem, but we all know Salem is the center for legislation. I am asking the governor, and all other legislators to STOP the taxing of Oregonians to support an agency that has no idea of how to use the funds available.
