On Behalf Of:

Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

Dear Committee Members:

Please vote YES! Oregon's economy and quality of life require good highways, streets, and roads to be there whenever we need them. These streets and roads don't just fall out of the sky and they don't just magically fix themselves. They cost money. The proposed increases are entirely reasonable for the services provided and will benefit us all. Everybody wants to go to Heaven but nobody wants to die! Please pass this bill.
