Hello :

As a native Oregonian I strongly oppose this tax . Oregonians are struggling as it is with cost of living and the taxes already upon us. Do an audit and see where money is being wasted . Oregon is top 5 for highest taxes across the board and this will just make it more desirable to leave Oregon , but the struggles for people will continue . Where does all the bag money go? Lottery money ? CAT tax? Seriously review each department and find where all the mismanaged money is going and stop thinking Oregonians are your endless tax cow .

Do the right thing and vote no ? Hold Tina accountable and take the money away for baseball team and the blue heron demolition just to name a few . Thank you
