Measure, Appointment or LC 2
Topic:

I am against all these outrageous raises in our Oregon taxes. We are not all millionaires, or on unlimited incomes. Please reconsider and do what is best for all Oregonians. Keep to necessary improvement to roads and highway structures. No new \$\$\$ to ODOT till they start and finish 1 project already collected for! No new programs at this time, taking care of our citizens is more important than pushing new taxes and policies until we can get projects done that are already deemed necessary! How many times are you going to raise the gas tax when you redirect it somewhere else. Oregon voters and taxpayers are hurting now, so please make some rational decisions and stop the threats to the few existing companies still located in Oregon. NO New Programs!! Thank you
