Funding

Measure, Appointment or  
Topic: LC 2

As a retired person, I have no earned income and must live on Social Security and savings. Gasoline costs in Oregon now far exceed national averages and added increases would be highly burdensome for everyone, particularly seniors. In my view, there should be no added taxes of any kind to properly maintain our roads and infrastructure. Instead there should realloaction of existing budgets away from social services and other benefits provided to illegal aliens and directed for the benefit of true Oregonians.
