Funding

Measure, Appointment or
Topic: LC 2

I am a single 60 year-old woman and I live on a very tight budget.

I have to plan and save months and sometimes years for things that are needed in my life. These taxes would create an even greater hardship that I am living under now. If these taxes go through I feel I will have no other option but to move to another state that does not put an undue burden on their citizens.

This government does not need more money but better fiscal management. Quit taking from established departments to fund projects that either we the tax payers did not vote on or agree to.

Heade the voices of Oregonians NO to THIS or ANY OTHER TAXES
