Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

I am a concerned taxpayer and am opposed to the transportation package proposed by Governor Kotek. I think we need to be more efficient in other areas like wasteful spending on homelessness projects that have been going on for almost 30 years and have accomplished nothing, equity programs withing ODOT that are eating up millions of dollars with no measurable positive outcomes, etc. Be a good steward of our money before asking us for more.

Respectfully,
Wes French
