Regarding the Joint Interim Committee on Transportation Funding. NO MORE TAXES! Please manage what you have. Abandon DIE programs, climate change nonsense, and giving away our tax dollars to illegal aliens. THEN you would have enough funding. Once you have the funding, get rid of the bloated administrative staff so workers can do their jobs - maintaining our streets and roads. NO MORE TAXES. Enough businesses have either left Oregon or are planning to leave Oregon due to the mismanagement of our tax dollars. It's getting difficult for anyone to be able to afford to live in Oregon. Vote NO! Thank you.
