Please vote NO "on new taxes." When we as individuals find out we can't afford something we have to do the HARD work of finding out ways of becoming more efficient, cutting costs, and finding out what is truly essential to our family. Doubling registration fees, increasing the cost of transportation will only hurt the poorest of the poor in Oregon and will end up disproportionality affecting the poor who rely on the cost effectiveness of transportations to get to and from work to make life livable. Please do the Hard work of cutting budgets, increasing efficiency and finding ways to complete goals without resorting to taxing the poor.
