Cutting ODOT funding and risking lives for unsafe roads. Classic. Consider cutting funding to pay for illegal immigrants legal fees and healthcare. What kind of a world are we living in that those we voted in office would rather risk our LIVES rather than 'losing' their fight to help illegal immigrants. Yes they are human. Yes they have options to become citizens the LEGAL way. Only then should we be budgeting millions. Where's my legal aid \$? Oh right, I'm a legal citizen so nothing extra for me. ????? I'm sure there's plenty of other nonsense funding that can and should be cut before ODOT.
