

Submitter:	lance stewart
On Behalf Of:	myself and family
Committee:	Joint Interim Committee On Transportation Funding
Measure, Appointment or Topic:	LC 2

oregonians can barely stay in their budget if at all...the biden administration immediately caused 12-14% inflation on taking office and it keeps going up despite trumps promises..odot is a customer of mine and they are the most poorly run entity i have on my customer list..democrats just keep taxing and spending like theres no tomorrow...osot needs shaken out like an old dusty rug and re constituted doing bare bones services....failing mass transit , bike lanes and climate change expenses are un necessary right now...trump is cutting oregon off from federal funds so we need to buckle down and live within our means...bare bones services like plowing , and pothole repair , signage , striping , maintenance etc...the democrats are killing us
