Measure, Appointment or
Topic: LC 2

Good Day1 I am a retired veteran that lives on Social Security. The only reason I am surviving right now is that my wife (God rest her soul) was great at preparing for something to happen. I have \$200.00 left after bills are paid for my VA medical prescriptions, food, clothing and toiletries. If I have to pay more for vehicle registration, gas or whatever else the Governor decides she needs to run her dictatorship policies instead of trying to figure out how to budget, then I will soon be a homeless person. I only drive about 15-20 miles a week so it makes no sense that I should have to pay more for the already high registration fees. I am sure that I am not the only retiree in the state in this position. If the plan is to get rid of the retired, veterans or poor people then vote yes, if you care about the people in the state then vote no. If I can figure out a budget on my income then the state should be able to figure out how to budget without causing harm to so many.
