Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

Vote no! As a veteran who has served my country for over 21 years, I am currently receiving a fixed income. This transportation package will have substantial repercussions on my finances and my ability to afford essential expenses such as gasoline, groceries, and utilities. I currently reside and care for my elderly mother, who is also on a fixed income. The proposed increases in this transportation package will make it virtually impossible for her to afford her vehicle. Furthermore, this does not even address the potential for ODOT to raise taxes and fees themselves in the future without legislative approval. Please vote no to assist fixed-income families in living within their means and affording their necessities.
