Topic: LC 2

Dear Legislative representatives, I have been a hard working citizen of Oregon since 1978 when I moved here from California to escape the oppressive taxation and regulation of the California law makers. As I have been here now for nearly 50 years and I am seeing the very same poor financial management that has and is destroying California at a rapid rate. We the citizens of Oregon are disgusted at the one party rule that is reckless in it's spending and oblivious in it's bleeding of it's constituents finances!!! you heap burdens upon us with little care or regard for the poorest among us (those whom these taxes and fees hit the hardest). If you pass this blasphemous bill the hatred and disgust for the one party rule will grow even greater and the end of you power will get closer as Americans awake to your tone deafness. Vote this crap down! Oregon is already a tax zone without equal, manage with what you already are taking from us! NO MORE TAXES AND FEES!!!! One of thousands of tax paying citizens done with the oppressors,.... Jim Denny.
