Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

Please do not pass these proposed tax and regulatory increases. I am retired and can not continue to fund these increases. During my career, I worked for Oregon Department of Forestry and Protection Associations developing and managing fire protections budgets. Also, 12 years on the Sweet Home School Board that including budgetary development. We always tried to limit increases that landowners and the public could accept. Please do not accept the Governor's proposed tax increases with out doing intense review of the current budget, priorities and expenditures, At the current proposed increases, I will not be able to continue taking my wife to medical care and may have to sell my home and property after 40+ years. Thank you for your consideration of my concerns.
