Oregon has way too many taxes as it is now the Oregon citizens shouldn't be used as an open checkbook there needs to be accountability on the government side. I am sick and tired of our governments answers to budget shortfalls is to raise more taxes. We live by a budget the government needs to do the same. The people of this state have time and time again said NO MORE TAXES. Remember the government works for the people the people don't work for the government.
