Funding

Measure, Appointment or  
Topic: LC 2

No new Taxes I am a teacher and single mother with children. We are already getting hit at the grocery store and for clothing. Prices are already up with inflation. I could barely provide for my two daughters to get what they need for school. The state needs to learn how to budget their money just like our school district Needed to combine roles and let other u needed positions go. Do not raise our taxes or transportation fees that's not fair especially for working class people if you need further information, please email me or call me 541-543-1236.
