Funding

Measure, Appointment or Topic: LC 2

I am 100% against this bill. We need to end the wasteful spending that is killing/debilitating the taxpayers as it is. Raising prices and taxes does not fix or solve our problem, not taking years to repair roadways or build new ones when they can be done in months or weeks without all the red tape is a way of saving a ton of taxes paid by hard-working Oregonians and it still continues to keep people employed with good paying jobs. This is ridiculous and needs to be stopped. Please vote this bill down as it will only be a detriment to most Oregonians!!!! Thanks
