Measure, Appointment or Topic:	LC 2

We stand united in our opposition to the Oregon tax hikes, which threaten to place an undue burden on working families and small businesses. These increased taxes demonstrate a failure on the part of the governor to effectively represent the interests of the people. Politicians are meant to serve and advocate for their constituents, not prioritize their own agendas. We believe that Oregonians should come together as one community and refuse to pay any additional taxes if these hikes go through. It is time for our voices to be heard, and for our leaders to prioritize the needs of the people over unnecessary and unjustified tax increases.
