PLEASE!! Enough with the constant tax punishment for living in this state. Oregon taxpayers have given you, Governor Kotek plenty of money for our roads and highways to fill ever pothole in the state. Don't penalize us now for your misappropriated infrastructure budget funds. Most "outside-Portland" Oregonians know this really is about funneling more of all our monies into Portland metropolitan special favorite projects, bridge here, bridges everywhere. So, NO!. Open your eyes please, and see the rest of us. Open your ears and hear what we're saying. STOP hurting us, just because we live here.
