Measure, Appointment or LC 2
Topic:

We the people of Oregon are bled to the point of no return.

Hold the organizations and “public leaders” accountable for lost/missing income, failed projects and over budget expenditures. Just because you cannot do basic math and balance a checkbook to budget your income (like we have have too to survive life) doesn’t give you the right to continually rape and bleed us for more and more money. For once, stop and look at the real problems!
