This is regarding the new plan brought forth by Tina Kotek in raising taxes on Oregonians. Please I already cannot afford to operate a business in this state that I call home. At this rate I will never be able to afford a home or invest for retirement. Fuel prices alone are out of sight and almost unaffordable. If nothing is done to reduce the financial strain on Oregonians, there will either be no one left in the state to pay taxes or the next election someone we the people will put someone else in office.
