Dear Tina and Oregon Legislators,

I am a 77 year old former school counselor and therapist who has lived in Oregon since 1975. I was diligent about saving money for my retirement yet now I find myself in the position of being afraid I will run out of money because of inflation and taxes. The state is losing businesses as well as wealthy citizens. Surely you are aware of this trend. I am continually going over my budget and figuring out ways to save money. Why aren't you doing the same????? I am unable to sleep well because of the stress and quite frankly, I blame you. ENOUGH!!!!!!!!!! We can't afford your agenda!!!!!!!!!! You are causing undue hardship on many people, particularly those of us on a fixed income. You are doing REAL HARM to REAL PEOPLE!!!! How can you sleep at night?

Sincerely,
Rita Smith
