I oppose this tax... it's already enough for us to be able to make ends meet as it is. Please vote against this tax we are already taxed enough and we haven't seen any positive changes in our state. Increasing these taxes will only bankrupt the Oregon taxpayers, be forced to close businesses, have to move to other states that are more for the people or worse end up homeless. Please I'm begging you vote NO our future and life depends on it. Thank you!
