Committee: Joint Interim Committee On Transportation  
Funding

Measure, Appointment or  
Topic: LC 2

Hello...my name is Babs Vanelli, 77 year old life long Oregonian, currently living in an old NE Portland Neighborhood. I was extremely disappointed that the Legislative

Session ended this year without passing a Transportation Bill. Thankfully, there will be a Special Session Monday 8/25 to revisit this.

Let me add my voice to the 1000's of Oregonians who want to keep our transit systems

running and keep our roads and bridges maintained. I know the current proposal is a scaled back version of the one initially presented but Oregonians like myself are adamant that we must stabilize funding for our transportation system.

I implore all on the committee to PASS THIS LEGISLATION!!

THANK YOU!!
