Topic: LC 2

I have grown up in Oregon all my life, and I thought Govenor Brown was bad, but Kotek is way worse. She is trying to take our rights away as citizens and as Americans. It is hard enough to earn a living in our State as it is, and she is trying to make it worse by taxing us more and more, upping charges on Gas, Licenses, registrations, and whatever else, just because she won't hold ODOT responsible. Our Beautiful State is going to Hell. She doesn't care about us as citizens. Our poor young people getting married can't even afford to buy their own house, let alone rent anything at all, a lot of them are having to move in with their parents, and they are both working. This is sad. She is trying to put us all out on the streets. Some of us already work more than one job just to be able to pay our bills. Why should we have to pay for others debts, we are already taxed on everything, pay too much for gas, groceries, and everything else. She needs to be held accountable.
