Topic: LC 2

I am sick and tired of being taxed in every way possible. I am a high earner and am taxed in every way possible. Tax hikes of any kind always affects me. Enough. Get the tremendous waste under control before you raise taxes yet again. I fled the metro tax and moved to Yamhill. Next, I will buy a house in another state and claim residency there and use my Yamhill house whenever I want simply to escape this nonsense. I am not alone. There will be less and less of people like me who pay the majority of taxes.
