Topic:

To whom it may concern, I think it is unfair to tax us over the ODOT funds shortage, Governor Kotek received billions from the Biden administration for these illegals and for her Sanctuary policies. Where is the money? I want our state to audit her and the programs, that have stolen Lottery dollars for ODOT, school funding, etc.... when I voted in Lottery quite a few years ago, We had a Democrat Governor, and it was stated the tax payer would never see a rise in tax dollars for highways and especially schools for funding, as the Lottery dollars would more than help with this specifically!!! Since then, it seems more Lottery funds have been misused, and since then, we continue to be robbed,,agriculture has been environmentally regulated beyond common sense, which includes logging, fishermen, and hunting/ fishing/ boating recreations licenses and fees.... this has to stop!!!! We cannot afford more taxes because of mismanagement practices. Cut your special lobbied interest groups pet projects instead of making us taxpayers pay more!!!! I want to see an AUDIT of the funds, especially from Governor Kotek!!! She needs to be held accountable before squeezing more dollars from our already stretched paychecks!!! Period!
