What is wrong with you people in Salem? Standard of living in Oregon is tanking and you want to put more taxes on us? What part of insane don't you understand? I am not sure what utopian society you live in, but enough is enough. It's time to think of the little guy, you know your constituents, the ones that elected you to the office you currently have. You are here to serve the people, not the other way around. Somewhere along the way you have forgotten that. Please remember, before it's too late and you drive more companies out of the state.
