Committee: Joint Interim Committee On Transportation
Funding

Measure, Appointment or
Topic: LC 2

As a fifth generation family small business owner (construction), I strongly oppose the tax increase to help fund ODOT. We are already at a breaking point with the high taxes in Oregon, and cannot afford increased payroll taxes, fuel prices, etc. We beg you to please help make Oregon a more business friendly state. We are seeing businesses close and/or flee the state to lower tax states regularly these days. Please rework the transportation budget and find efficiencies instead of taxing the citizens without their vote.

Paige Lantz and family,
Molalla, OR
