Measure, Appointment or
Topic: LC 2

To Whom It May Concern:

On behalf of myself, all low income, fixed income and struggling Oregonians I protest this Governor and this outrageous bill of hers in the strongest way I possibly can.

This governor is bad for Oregonians and bad for Oregon. Possibly the worst we ever had and that's saying a lot because her predecessor was absolutely horrible!

Now, Ms Kotek can talk all she wants about how she's building low income housing to help the homeless situation et al but this bill puts more people IUT if their homes and in the streets. These increases makes it especially hard every year for folks to pay for their tags/registration updates, renew their drivers license, buy gas to get to work or doctors appointments, put groceries on the table, pay the rent or mortgages, and the whole shebang. Kotek isn't helping Oregonians—she's hurting them. I cannot oppose her strongly enough in a text but something's got to go and I think it's her.

ENOUGH IS ENOUGH!! Someone needs to rein her in and block this bill and any others like it! The people said no on the ballot to all her bullshit bills and that is the end of it!! Stop pushing things through that the people don't want. WE HAVE HAD IT!
