I absolutely oppose this transportation bill. What part of government responsibility do you not understand. This will not make the lives of the citizens in Oregon better. Raising every possible tax and fee hurts Oregon families. This year I payoff over \$1200.00 in DMV fees. Now with this increase our will go to over \$1800.00. Drive around and look at the number of cars not current. Hmmm, why do you suppose that is? Fees already beyond the reach of many. How many more will simply say no and stop paying. You are taxing people and businesses out of our state. Stop!!
