Topic: LC 2

Lawmakers should be assessing changes to the law that would grant ODOT greater flexibility in how it uses the money it already has! It is a gigantic agency, & they have more than enough money to perform their basic functions. If we take away these restrictions and give them the flexibility to be able to prioritize their money as they need to, WITH MORE ACCOUNTING/OVERSIGHT then they can still keep our roads safe. Less Boondoggle projects--keep priorities straight, such as fixing potholes, keeping snowplows in use as needed, etc.
