Measure, Appointment or Topic: LC 2

As a voting citizen of the great State of Oregon, I am asking you to please DO NOT raise the gas taxes, the payroll tax and the car registration, along with whatever other taxes you have planned. We are struggling enough under the highest property taxes in the nation. Instead of putting a bandaid on it by raising taxes, why don't you do a complete and full audit DOGE, if you will, of the already existing ODOT budget and accounts and find out where the money is already going. I bet you would find enough to keep ODOT and a handful of other programs going. But we, the people should not be forced to pay these tax increases. Just because California does it, doesn't mean Oregon has to be the copycat of California. It's not too late to turn this around and right this sinking ship. Please do the right thing by the voters of Oregon. No new taxes! Thank you Shelley Greenwood Salem Oregon
