Topic: LC 2

You can solve problems without throwing money at it, oh you know what that's inaccurate I mean stealing money from poor people. Oh and you probably are saying "poor people don't pay taxes" well congratulations people that make 150k a year are now poor too.

I'd also like to add that maybe you should listen to people that aren't drinking the same kool-aid as you, you might learn a thing or two.
