More burden on the Law Abiding Taxpaying Citizens. Do the Democrats have the non profits already picked to funnel the dollars thru so they can get paid for their vote? I cannot be reading this correctly, you want to give a government agency the ability to raise taxes with no accountability? Sounds like a typical Democrat proposal. I can hear a Democrat saying Just shut-up and pay your taxes.

Here is a thought, accountability! Where are the tax dollars going now and are they being spent with the law abiding taxpaying citizens best interest? How many hundreds of millions have already gone to non profits with zero results for the vagrant issues? How many millions are being spent on the Democrat sanctuary policies? Do you really think the law abiding taxpaying citizens want their tax dollars to pay for criminals to live for free?

I know this wont fly in the Democrat controlled congress but I believe you could find all the money needed if you implement DOGE agenda and find where the billions are being wasted!

Is it a coincident the Oregon Department of Education continue to promote ignorance by lowering standards and the state continues to elect ineffective legislators who are more consumed by TDS than doing the work of the Law Abiding Taxpaying Citizen?
