I oppose ANY new tax on anything!

Me and my family are currently struggling in this economy and do not want more strain. ODOT needs to budget appropriately and be up front and transparent.

Also, with all the new housing going in, there isn't a plan for new infrastructure and our roads need to be maintained without adding more strain. For example, what ever happened to the money that went into the La Pine overpass? That was A LOT OF MONEY!!! Where did it go?

No new taxes, period!

Thank you for your attention in this matter.
