Topic:

Please reconsider these outrageous and unrealistic hikes on transportation and gas taxes. There are so many Oregonians struggling now to keep a roof over our heads and kids fed, what we need is responsible leadership, not higher and inflated taxes on necessities of life. Most of us true Oregonians are already struggling with higher taxes and can't handle anymore pressure, I am not alone in our concerns that these high increases will stop many from driving due to lack of funds. We can't magically produce \$\$\$ to cover these added bloated expenses; as our governor already knows. Stop the insanity and find a more productive way rather than drive businesses out of Oregon and forcing people to give up their vehicles due to excessive taxation! Thank you
