Kotek is ruining the state of Oregon. We thought Brown was bad at her job, but Kotek is worse. We work very hard to keep our family housed, fed and vehicles to get to and from said jobs.

Portland is not a bike-friendly city as they advertise. The public transportation system is dangerous and after learning every single surface is covered in fentanyl, it makes it even more so. Empty busses pass by every hour. The Max is never full. Our roads are awful. Why can't Kotek manage the money she already has better? Her policies want to bring in MORE crime and MORE taxes. We are very against paying more for the registration of our vehicles. No more increases our payroll tax, and stop assuming our kicker is up for grabs. I'm traveling down to LaPine this weekend just to sign the petition to evict Kotek from office. No more taxes!
